

SUSTAINABILITY & CHARITY

Collaboration between Career Department & Communications

The hospitality industry is not just about providing exceptional service and creating memorable experiences for guests—it also has the power to make a positive impact on the environment and local communities. Embracing sustainability and charity initiatives is not only a responsibility but an opportunity for the industry to contribute to a better world.

AT SWISS EDUCATIONAL COLLEGE

At Swiss Educational College each semester we run projects based on sustainability and ecology in Hospitality and Tourism industries. Sustainability in Hospitality projects are run by Professor Aga. During the project student work in groups and represent their ideas to the whole college.

Sustainability projects in Tourism are run by Pr Jorge. During the projects, students are trying out different tools, apps, and programmes that are implemented in tourism to save energy.

CASE STUDIES

TOURISM & HOSPITALITY

At Swiss Educational College we focus on various examples of hotels and restaurants. One of the categories we focus on is sustainable and eco-friendly places. We meet managers, and chefs and have an opportunity to learn practical examples of keeping zero food waste, eco-friendly programmes and sustainable solutions in the Hospitality and Tourism Industries.
